MEDICAL CERTIFICATE

Medical Certificate Id: DA-1753783770-232473792

To verify the authenticity of this MC, please visit: doctoranywhere.com/mc-validation

Date of Consultation: 29 Jul 2025 06:45:00

Patient Name: Ron Paulo Cueto

Patient Age: 28

Patient Address: Blk 26 Lot 23 Soldiers Hills Village , Putatan, Muntinlupa City, philippines

This is to certify that the above-named patient was evaluated with the following findings:

Diagnosis:

E78.5 Hyperlipidaemia, unspecified

Remarks:

Assessment: Dyslipidemia Plan: Advised dietary modifications. No need for medication. Repeat lipid profile in 3 months. Patient is cleared as FIT TO WORK from Internal Medicine - Endocrinology standpoint.

The recommendation provided is based on my medical assessment during the virtual consultation. However, I defer to the company's Occupational Health (OH) Physician (where applicable), or to any Physician who examined the patient in-person for the final disposition regarding the patient's condition.

This medical certificate was issued upon the request of the patient for whatever purpose it may serve except for medico-legal, and subject to the limitations indicated below.

Certified By:

Noemi Angela Nunez
PRC No: 0144438
PTR No: NA

*The patient hereby certifies that all the information disclosed during the consultation is **TRUE** and **CORRECT** to the best of his/her knowledge. The physician and Doctor Anywhere shall be free from **any liability** arising from any error or misdiagnosis due to false or incorrect information being given by the patient, and from any dishonesty of the patient.*

*Finally, the patient is warned that the falsification/ tampering of any medical certificate will result to the invalidation of the same, and such act or the use of such medical certificate are **punishable acts under Revised Penal Code, specifically that Section 4, Article 172 or Section 5, Article 174 thereof**, depending on the circumstances.*

IMPORTANT NOTICE: This Medical Certificate was issued following a consultation via Telemedicine. While all necessary steps were taken to arrive at the best possible diagnosis and recommendation, all parties are advised that Telemedicine is subject to certain limitations, such as its virtual nature and/or lack of access to complete patient records. Furthermore, the patient must seek urgent medical attention as may be necessary, in case the symptoms persist, condition does not improve, or adverse reaction is noted from any prescribed medication, among others.
