Subject: Sick Leave for Today - 10-08-2025

Hello TL Bryan,

Good day. I sincerely apologize for the short and late notice. I initially thought I was well enough to report to work today, but when I woke up, I suddenly developed a fever and felt extremely weak. I'm not sure if this is related to my current condition, as I still don't have the final diagnosis. The results are expected to be released today, and I also have a scheduled follow-up check-up.

Given how I'm feeling, I would like to request sick leave for today so I can rest and attend my medical appointment. I truly apologize for any inconvenience this may cause and deeply appreciate your understanding.

Thank you for your kind consideration.

Kind regards,
Marnie
