2025 Clark Sales Schedule.xlsx;

Hi All,

Good morning.

Please see below the details for our September work schedule, effective **September 1, 2025**. This month includes only a few minor changes, such as updates to working hours, rest days, and the assignment of one team member to a 4-day workweek.

I've decided to implement a rotation where only one team member is scheduled for 4 working days, and the team has agreed to this arrangement. This approach ensures coverage, especially when someone is on leave.

As part of our regular monthly rotation, the late shift assignment has also been updated. I may also work from home for one day, depending on the installation of the WatchGuard device. I'm planning to choose either Tuesday or Thursday and will confirm once everything is finalized.

The full September schedule is attached for your reference.

Regarding the upcoming AU holiday on September 26, I'll provide an update by the first week of September for those who wish to work on the holiday or take it as an offset day off.

Please let me know if any changes are needed.

Thank you,
