PURPOSE

- This induction outlines the responsibilities that both you and Pulitano Group have in ensuring your health and safety, and that of your colleagues in the workplace.
- This induction will provide you with an overview of the safety requirements for the depot and how you can contribute to keeping your workplace safe.

OUR CULTURE

PULITANO GROUP

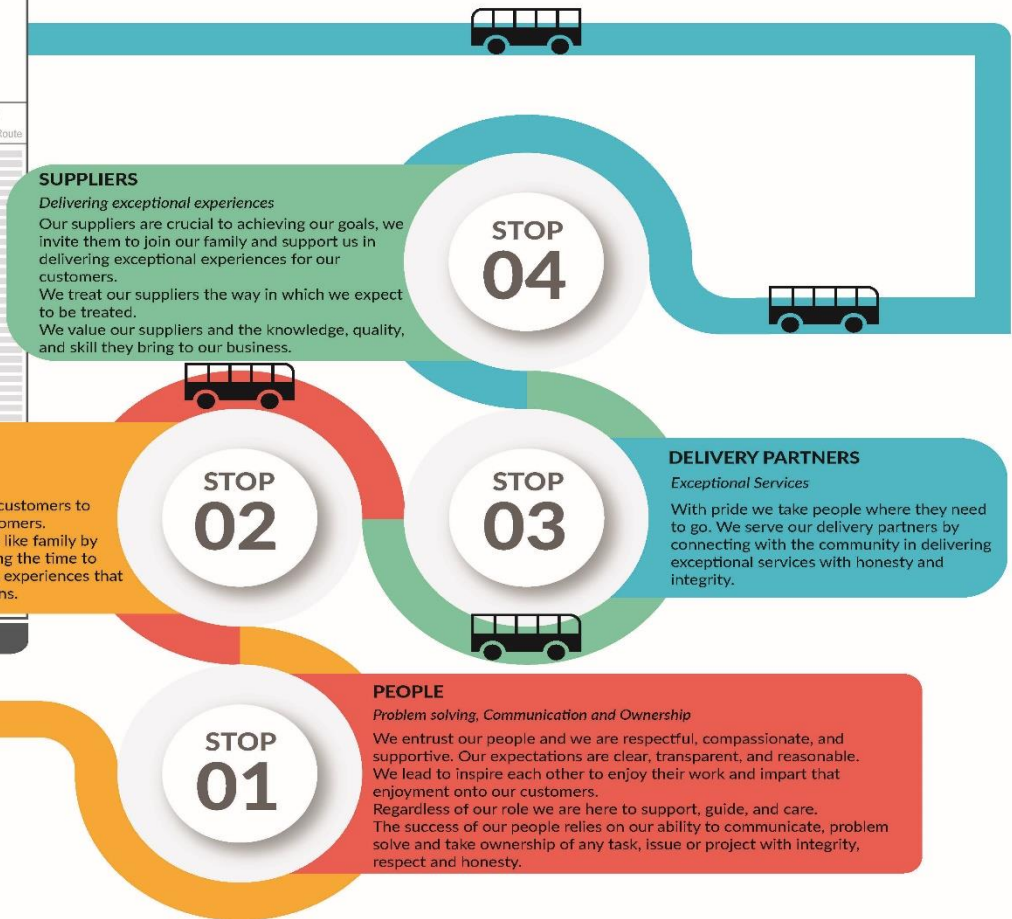

Route: Our Culture

Weekday			Weekday			Saturday			Sunday/Holiday		
Time	Destination	Route	Time	Destination	Route	Time	Destination	Route	Time	Destination	Route
At the Pulitano Group we care. Passion, trust, honour, growth, pride, respect, and success are our values. We are passionate - we share passion for work, relationships, accountability, and connecting with our staff and the communities in which we serve. We trust each other. We are committed to growth through a foundation of leadership. We take pride in fostering a harmonious environment within which we can achieve success of our corporate and individual goals.											

CUSTOMERS

Connecting with people

We want our youngest customers to become our oldest customers. We treat our customers like keeping them safe, taking them connect, and by sharing experiences exceed their expectations.

HEALTH AND SAFETY POLICY

PG017 Work Health and Safety Policy 2020

The Pulitano Group of companies is committed to its moral and legal responsibilities for providing a healthy and safe working environment.

To meet this commitment, we will adhere to the core values of integrity, quality, safety and accountability to drive business decisions, actions and conduct.

Pulitano Group is committed to the objectives:

- All incidents are prevented;
- No injury to anyone; and
- Respect the community and environment.

To ensure a safe and healthy work environment the Pulitano Group will:

- Provide information, training and instruction to workers that is suitable and adequate having regard to the nature of the work, nature of the risks and control measure implemented;
- Encourage worker consultation and participation in safe systems of work;
- Develop and maintain a health and safety management system for the provision of a safe working environment;
- Implement and maintain a risk management system to facilitate the identification, assessment and control of risk that may affect the health and safety of workers or damage to equipment or the environment;
- Ensure that no worker will be discriminated against for participating in health and safety activities or for refusing to work under unsafe working conditions;
- Allocate resources for the implementation of incident and injury management measures;
- Encourage, support and seek the commitment of all workers to intervene in any unsafe action or condition to avoid incidents before they occur. All workers are expected to "stop the job" and report to supervisors as a responsibility;
- Commence the injury and illness management process as soon as possible after the occurrence of the injury in a manner consistent with medical advice;
- Ensure the prompt recording, investigation and implement of corrective actions following the reporting of incidents, injuries and illnesses;
- Ensure the safe and early integration of workers back into the workplace following an injury or illness by providing appropriate and meaningful work.

All workers are expected to participate responsibly in maintaining a safe and healthy workplace by:

- Ensuring their acts or omissions do not adversely affect the health and safety of themselves or other persons;
- Stopping the job to address unsafe conditions;
- Report hazards requiring attention to ensure the health and safety of all persons in the workplace; and
- Comply with all reasonable instructions given by management to ensure legislative requirements are met.

Adam Pulitano
Managing Director

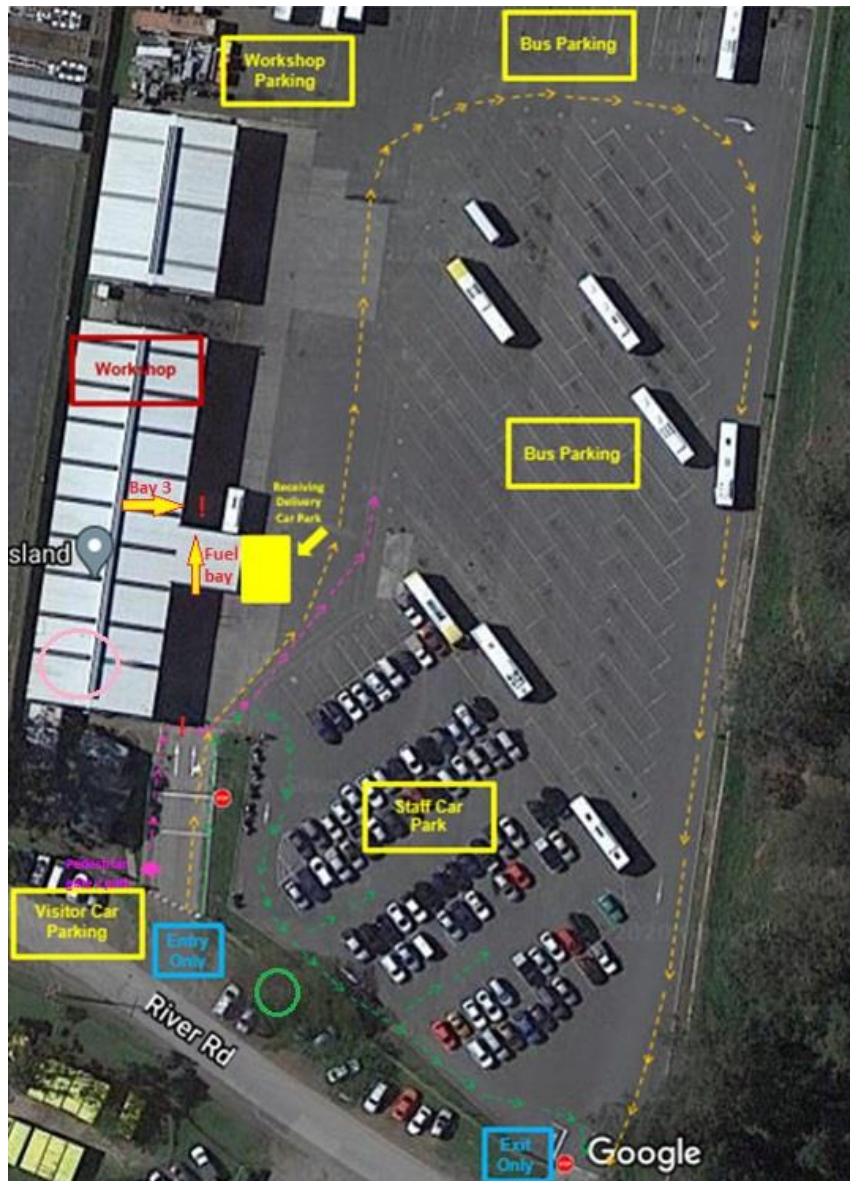

Date: 11 February 2020

- This is assigned to you at induction to read and acknowledge. It is accessible through Flare.
- It is also displayed on WHS noticeboards in the driver's kiosk area and in the workshop.

Site specific risks to look out for at Westside depot

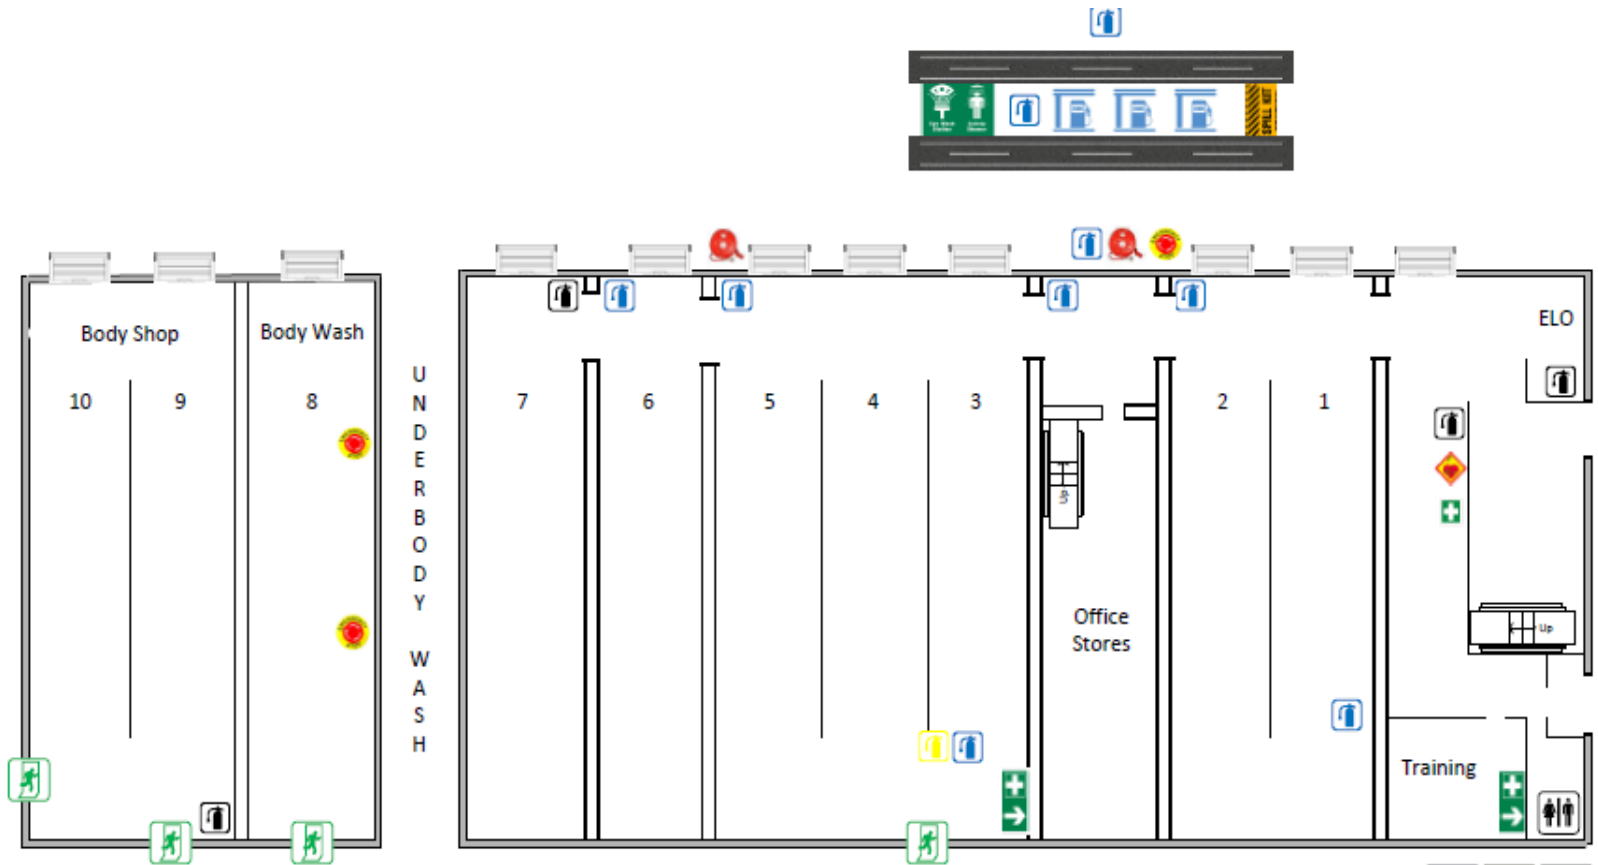

- Trip hazards and uneven surfaces around the depot
- Not all bus parks in the yard are accessible via designated pedestrian pathways
- Pedestrians must give way to all mobile plant and vehicles
- Reversing buses from workshop bays and within the yard
- Densely occupied bus and car parking within the yard
- Extra care must be taken in the fuel bay area, where there is a lot of bus movement from workshop bays 2 and 3.
- Always be alert of people at the depot who you do not know or who are not wearing Bus Queensland uniform.
- Network Controllers working alone on site during late nights and weekends and steep stairs leading to 2nd floor.

SITE LAYOUT

- Entry and exit is through different gates on River Road and it is one-way traffic in the depot.
- The Administration building is located on the right of the entrance and highlighted in pink.
- The assembly point is circled in green and is located on River Road near entry gate.
- Yellow line indicates direction of travel for buses.
- Green line indicates direction of travel for staff cars.
- Purple line indicates pedestrian movement entering the depot.

DEPOT AND WORKSHOP LAYOUT

TRAFFIC MANAGEMENT

Westside depot has a Traffic Management Plan in place which manages traffic risks associated with pedestrians, plant, and vehicle traffic in the workplace.

The following traffic rules apply within the depot:

- Speed limit is 5km/h.
- Pedestrians should use the designated pathways where possible and always be aware of their surroundings for vehicles in the area and uneven surfaces.
- Pedestrians must give way to all mobile plant and vehicles.
- There is a stop sign at the entry to the yard and vehicles must stop when entering the yard.
- Seatbelts must be worn at all times when driving in the yard.
- Hazard lights must be turned on when driving through the yard.
- Mobile phones should not be used when walking through the yard. If you need to talk on the phone, stand stationary in a safe place.
- Please take extra care and be aware of your surroundings as buses regularly reverse out of the workshop and traffic is always one-way within the yard.

SAFETY SIGNS

There are many different safety signs around the site, please take time to notice and learn them. Below are some of the many safety signs you need to recognise and adhere to when at our sites for the safety of yourself and others.

NOTICEBOARDS

Information displayed on noticeboards include Staff Information Bulletins (SIB's), Safety committee meeting minutes, Health and Safety policies, health promoting posters and contact information for HSRs, Emergency wardens and first aiders at the depot etc.

SAFETY TEAM

Birgit Vanaveski – Safety and Environment Manager

safety@busqld.com.au 0448 674 777

Abigail Hines – National WHS officer, 0439 263 921

Derek Jones - Health and Safety Representative (driver)

Krista Single - Health and Safety Representative (driver)

Germanjeet Gill - Health and Safety Representative (administrative)

Mark Field - Health and Safety Representative (workshop)

Health and Safety Representatives (HSRs) are those who have been elected by their workgroup to represent them on health and safety issues at the depot. HSRs attend the quarterly safety meeting and escalate any safety issues which have been identified by the workers for discussion at the safety meeting.

OTHER IMPORTANT CONTACT DETAILS

Kenneth-John Dunne (KJ) – Employee Liaison Manager, 0474 448 887

kenneth-john.dunne@busqld.com.au

Control Room - 07 38 18 2018

HEALTH AND SAFETY COMMITTEES

- Each committee meets quarterly, starting with the Depot Safety Committee meeting.
- Depot Safety Committee - is made up of HSRs, ELM, Workshop Manager and the Safety team. All HSRs are asked to submit agenda items prior to the meeting for discussion. Meeting minutes will be sent to participants and will be displayed on the noticeboards for all employees.
- The Steering Committee - is made up of Senior Management and Safety team. Issues discussed include agenda items not resolved at a Depot meeting level.

FIRE AND EMERGENCY

- Westside depot uses a loud hailer system to notify of an evacuation. You may also hear: “fire, fire, fire”.
- You can also be alerted by a emergency alarm with a loud sounder and bright red strobe as per the picture below. There are 3 emergency alarms installed around the depot – on Emergency board in the driver’s are in bay 1, workshop bay 3 and bodyshop. It is activated by a simple push button, which will activate a loud sounder and a bright red strobe. The siren will be on until it is re-set or battery runs out.
- In the event of an evacuation, follow the instructions of the Emergency Wardens and proceed to the Emergency Assembly Point which is located at the depot entrance on River Road.
- If there is not an emergency warden on site, calmly evacuate the building to the assembly point and notify emergency services by dialling 000.

FIRE AND EMERGENCY

- Emergency Evacuation Plans are displayed at various places around the depot and workshop. The Emergency Assembly Point for Westside depot is located near the entrance of the depot on River Road.

EMERGENCY EVACUATION SIGN & DIAGRAM

PG PULITANO GROUP
24 Arundel Street, Cranbourne VIC 3977

DATE ISSUED: MAY 2021 ; VALID UNTIL MAY 2022

EVACUATION PROCEDURES

Stage 1: Remove people from immediate danger area.
Occupants in the immediate danger area are to assemble a safe distance away from the fire and smoke. When the area has been evacuated all doors and windows should be closed to contain the fire (if safe to do so).

Stage 2: Remove to safe area.
If the severity of the smoke/fire warrants further evacuation, occupants should be moved through fire/smoke doors to a safe area.

Stage 3: Evacuation of complex.
Should the emergency require complete evacuation of the building, Fire Wardens or the Fire Service will direct occupants to the Assembly Areas.

Stage 4: Roll call.
To be conducted as soon as possible to ensure all persons are accounted for.

Stage 5: Assembly Areas.
Remain at Assembly Areas until clear or further instructions are given by Fire Officers.

Geoffrey Boyd

Mark Field

Faalae Jahnke

Wall-mounted first aid cabinets are near the driver's training room, bay 3 in the workshop and in each of the buses (kits). If you require first aid that is more than a band-aid, please ask a First Aid Officer for assistance.

Call or speak with your site contact for assistance.

JOB SAFETY and ENVIRONMENT ANALYSIS (JSEA)

- JSEAs are a document written to identify the hazards and risks associated with a task and the control measures in place to minimise the risk.
- All staff are sent the JSEAs specific to their role in their induction package through Flare, where it will be stored in the Library. Printed JSEAs are also available at the Workshop Manager's office.
- JSEA must be adhered to, including the mandatory PPE requirements specified in them.
- If you have questions or suggestions about a specific task or JSEA, please talk to the Workshop Manager or contact the Safety team.

PERSONAL PROTECTIVE EQUIPMENT

- All workers should have at a minimum a high visibility vest or blouse which must be always worn when in the depot. This includes the car park, workshop and when walking / working around the bus parking area.
- If you are performing work in the workshop, you are required to wear steel cap boots, otherwise, enclosed footwear is acceptable.

ALCOHOL AND OTHER DRUGS

- Pulitano Group has in place PG008 – Alcohol and Other Drugs Policy
- Random drug and alcohol testing is conducted at site. If you are asked to do the test, you must comply. Failure to do so will be taken as a “positive” result.
- All workers are required to have a 0.00 limit when on site or driving a company vehicle.
- All employees in control of any Employer’s vehicles and in high-risk roles, such as bus driver or mechanic, are required to undertake a breath alcohol test daily and at the start of each shift (including split shifts). Alcolizer machine is located in the driver’s room.

SMOKE FREE WORKPLACE

- Westside depot is a smoke free site. This means that no smoking is allowed on the depot or workshop grounds (including in vehicles).
- A designated smoking area is provided at the front of the depot and identified outside the depot. Please dispose your cigarette butts in the bins provided.

INCIDENT REPORTING

If you are involved in a workplace incident and/or sustain an injury, the following should occur:

- First aid or medical treatment will be provided
- Your Supervisor is verbally notified of the incident and associated hazards
- A W.I.P.E.R form needs to be filled in as soon as possible. This can be done by Pulitano app or forms at the depot. All incident reports are recorded at WHS Monitor and Safety team is notified when a new report is added to the system and an incident investigation will be held.

HAZARD REPORTING

- Some hazards are obvious, such as sun exposure, using chemicals or lifting heavy objects.
- It is important to always be aware of your surroundings, including vehicles in the area and uneven surfaces.
- You may be able to identify hazards by observing:
 - how people work
 - how plant and equipment is used
 - safe or unsafe work practices
 - how neatly the workplace is kept
 - what chemicals are around and what they are used for.
- Hazards can be reported using the Pulitano Group app or hazard report forms available at the depot. All Hazard reports are recorded at WHS Monitor and Safety team is notified when a new report is added to the system.

HAZARDOUS CHEMICALS

- At Westside depot, there are a number of hazardous substances used and kept on site, such as:
 - Bulk diesel, which is stored in an underground tank
 - To ensure the buses can be maintained to manufacturer specifications, several other chemicals / products are kept on site in a chemical storage room and in COSHH cabinets, e.g. coolants, oil, etc.
- Safety Data Sheets are available at the Workshop Managers office for your use. Please familiarise yourself with the PPE requirements if using any hazardous substances.
- Report any spills to your supervisor as soon as possible.

HOUSEKEEPING

- The worksite and surrounding areas must be always kept clean and tidy, and any safety or fire hazards must be removed.
- Garbage must be placed in the appropriate bin or removed by a suitably licensed waste management contractor.
- Good housekeeping is everyone's responsibility.

REHABILITATION AND RETURN TO WORK

- The expectation is that we will make reasonable efforts to support you to stay in the workplace following an injury or illness.
- Timely and effective rehabilitation assists employee recovery and a return to meaningful and productive work.
- The Safety team is your contact for your return to work and will ensure that you are returned to the workplace safely and in a timely manner.
- Birgit Vanaveski – 0448 674 777, safety@busqld.com.au

EMPLOYEE ASSISTANCE PROGRAM

- The Employee Assistance Program (EAP) provides free, confidential counselling to employees and their immediate family members, who need support in dealing with work-related and non-work-related issues.
- The EAP provides face to face or telephone access to external professionals.
- Conversations remain confidential within the boundaries of the professional code of ethics.
