Hi Steven,

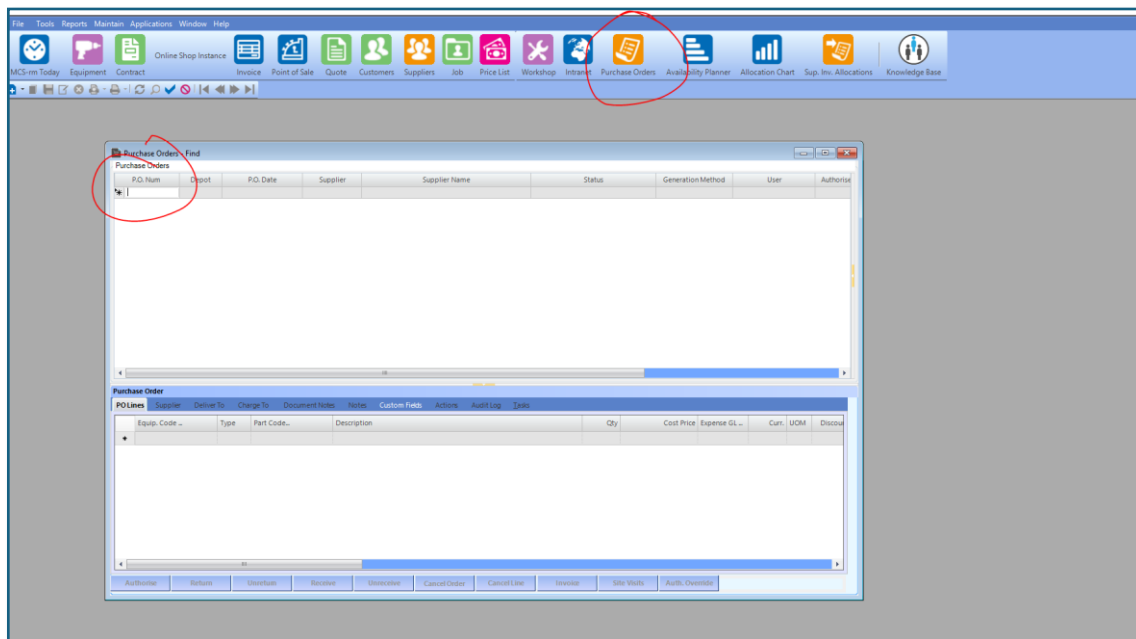

Here's invoice INV-2805 for AUD 550.00.

The amount outstanding of AUD 550.00 is due on 30 August 2025.

View your bill online:
https://invoicing.com.au/Invoice/View/Invoice/INV-2805

Once you open the invoice and identify our purchase order number

GO TO MCS RENTAL – go to the purchase order tab **SELECT** the **Purchase Order**

THEN Where it says PO Num – enter the **PO number**

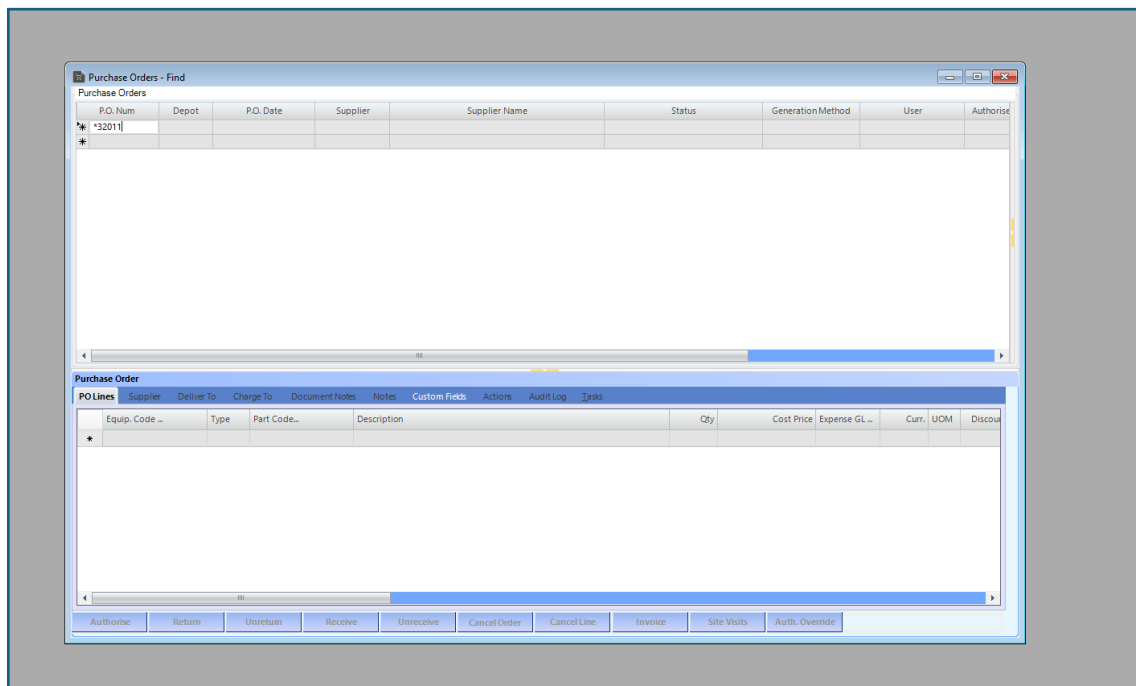

If you enter * and the numbers, you then don't need to write the whole PO number (which includes letters and number)

without the * you may get an error if the correct PO is not typed in.

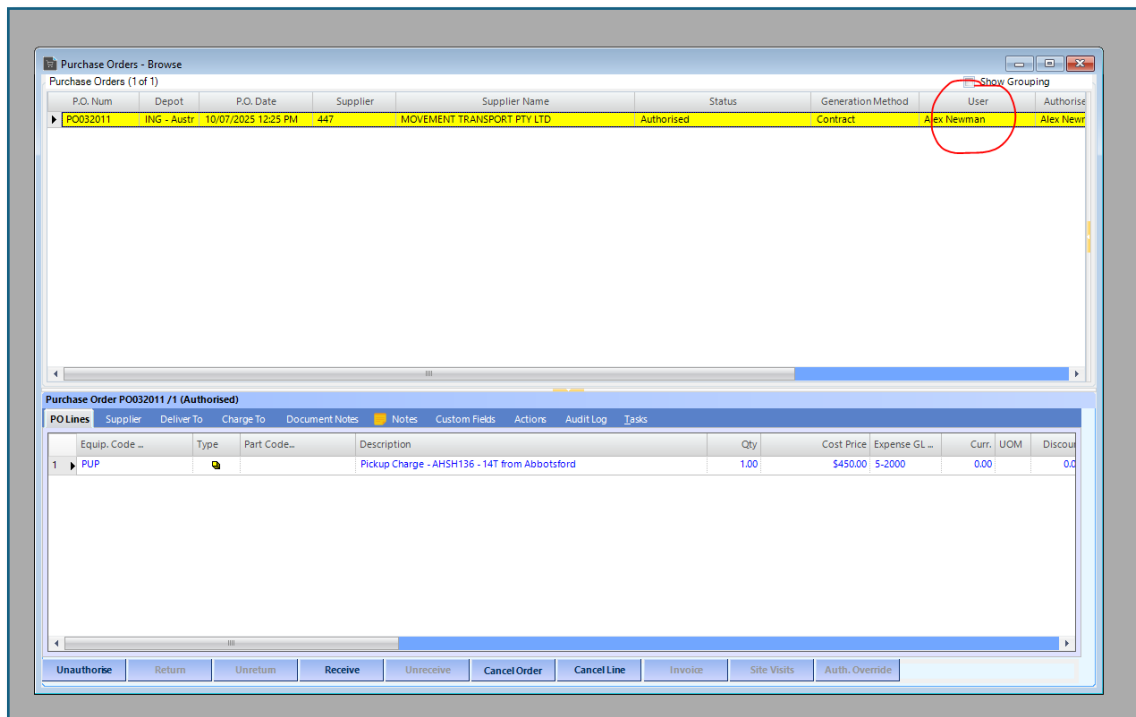

EXAMPLE - *32093 / *31968

Once number has been entered then select enter/enter on your keyboard to bring up the PO in MCS

Example - *32011 enter ENTER

If status is at created or authorised look at the user

THEN forward email of supplier invoice to that user -

User details as per below

(can also be found on the internal contact list found on the intranet -

- Jim (James) Adair – parts@hammerhire.com.au
- Walter Worobie – maintenance@hammerhire.com.au
- The service admin girls share an inbox – when emailing to them you send to the same inbox but categories them separately in your inbox – so you know who you are chasing
- Leonie Jenvey Vranistas (PLANT processing – anything relating to a AHS number) – hirebookings2@hammerhire.com.au
- Amanda Fortherington (ATTACHMENT processing – hirebookings2@hammerhire.com.au
- Alex Newman – transport@hammerhire.com.au
- Chrissy Walker – chrissy@hammerhire.com.au

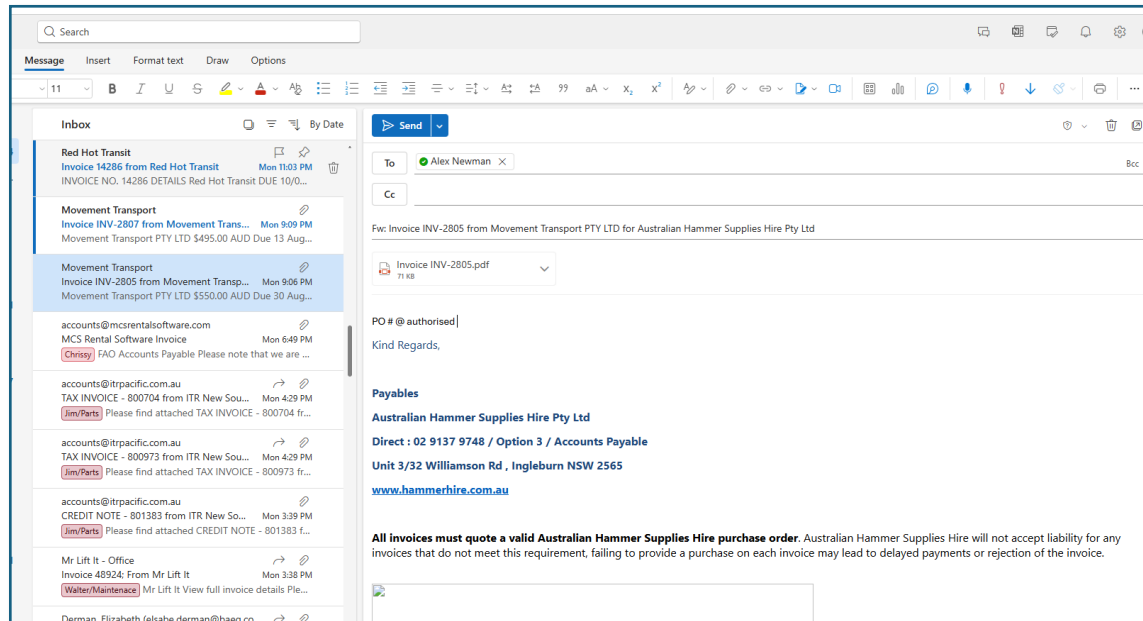

From your email comments can just be short and brief example –

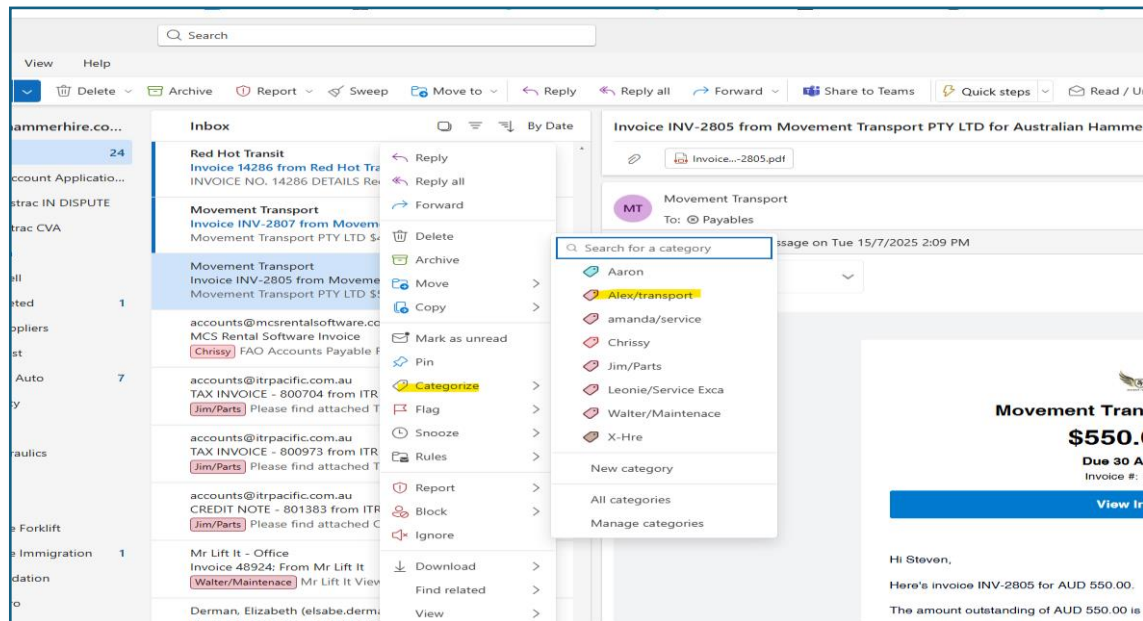

NO PO#

PO status at created or authorised

PO # doesn't match invoice

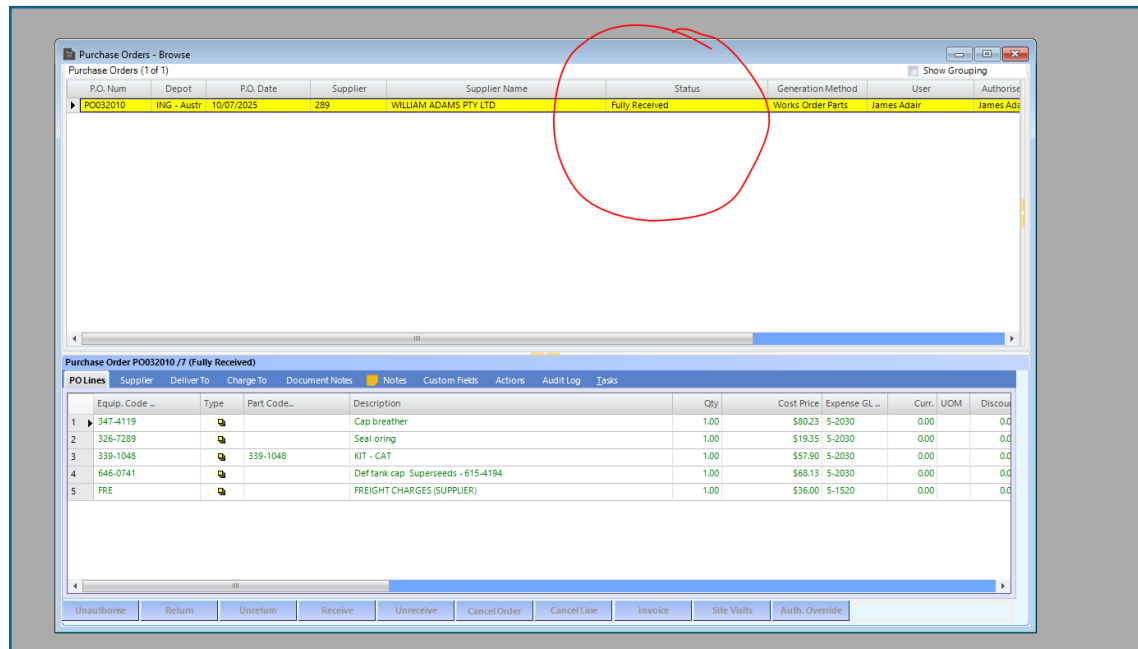

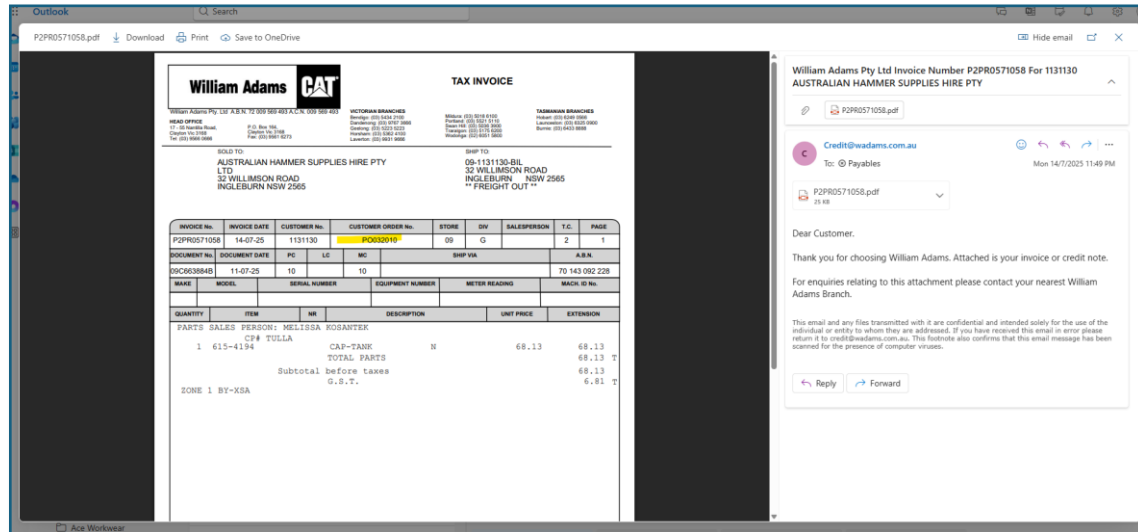

THEN categorise the invoice in your inbox

THIS STEP IS REPEATED UNTIL ALL EMAILS ARE CATEGORISED

If you come across a PO with a status “FULLY RECEIVED”

THESE IS READY TO PROCESS –

Check rate of invoice to rate of PO

NOTE TO REMEMBER - MCS is processed as EX GST – MYOB invoice values include GST

The email CAN THEN be filled under the **supplier** AND the processes as **completed**

ONCE ALL EMAILS ARE CATEGORISED, WE FILTER BY CATEGORIES AND CHECK ALL INVOICES TO COMPLETED THE “**Invoice Distribution**” Step in MCS

Statements – get filled to statements – we go through this folder once or twice a week

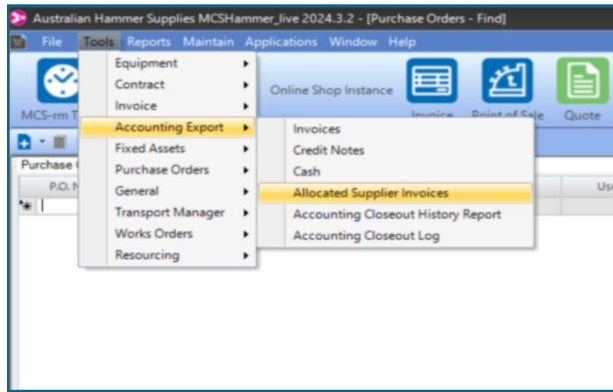

You get CCed in ALLOT of emails – you are OK to file these away -providing no one has asked you to action anything

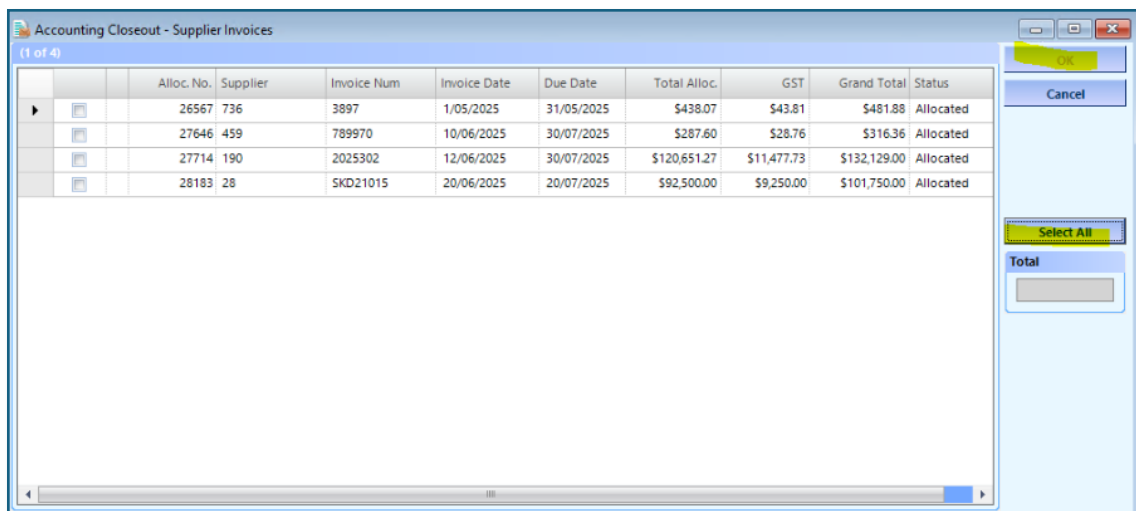

2. DISTRIBUTING INVOICES FROM MCS TO MYOB:

To move invoices from MCS to MYOB follow the steps below

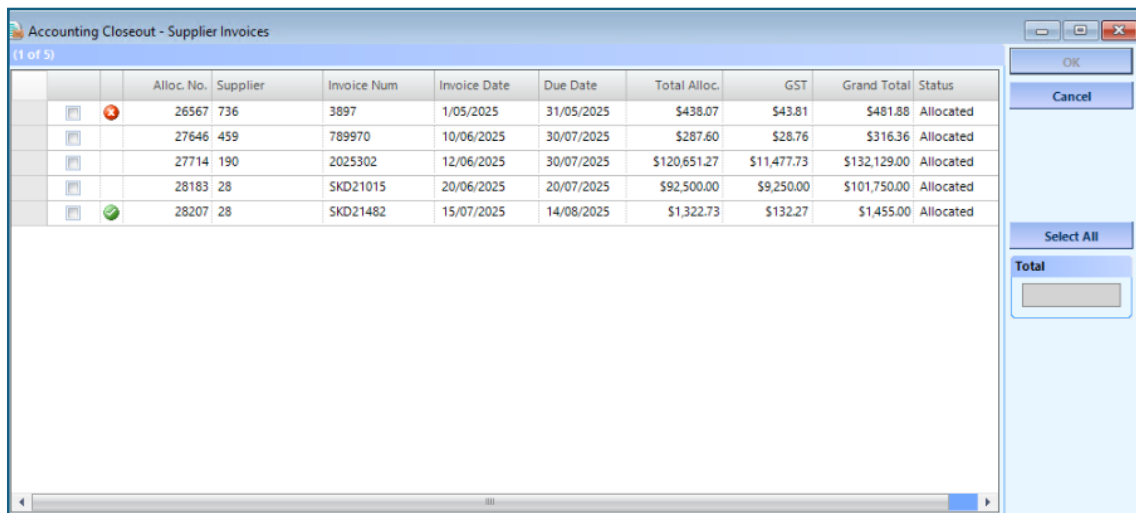

In the top left corner of MCS click **tools > Accounting Export > Allocated Supplier Invoices**

Once the below screen appears click **select all** and then **OK**

If the exports are successful there will be a **green tick**. If there is an error, it will be **red**

To find out what the error is hover over the red tick.

Press Ctrl+C to copy this text
Adding Invoice failed, Exception: Supplier Invoice 3897 already exists in MYOB.

Fix the issue accordingly and then start the export again.

If the error is an API issue, it's usually a connection issue and doesn't require a fix you will just need to try exporting again.

3. UPLOADING INVOICES INTO MYOB:

Once the invoice is processed in MCS and moved across to MYOB it needs to be sent to the MYOB in tray. You do this by forwarding the email to the below address. If you type **MYOB** in the "to" section this email will come up

Unit 3/32 Williamson Rd , Ingleburn NSW 2565
www.hammerhire.com.au

All invoices must quote a valid Australian Hammer Supplies Hire purchase order. Australian Hammer Supplies Hire will not accept liability for

Once emailed it will appear in the in tray which can be found in the **purchases tab**

The invoices will sit in the in tray until you link them to the invoices.
Highlight the invoice you wish to link and then click **“Link to existing bill”**

On the next screen it will show you the details of the invoice. Type the supplier in, it will bring up all invoices with no invoices linked. Find the correct invoice and hit link.

Also check the prices match. This is a good step to check for discrepancies

Running a Payment Run Report

Payment runs are done twice a month the on 15th & last day of the month. In preparation of the payment, we run a report a few days prior and reconcile or fix any errors

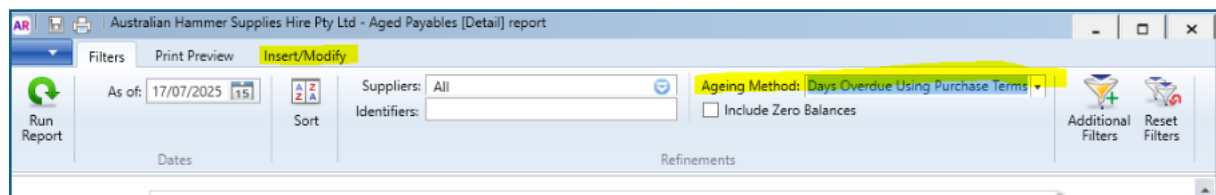

To run this report, we go to the purchase tab and hit reports

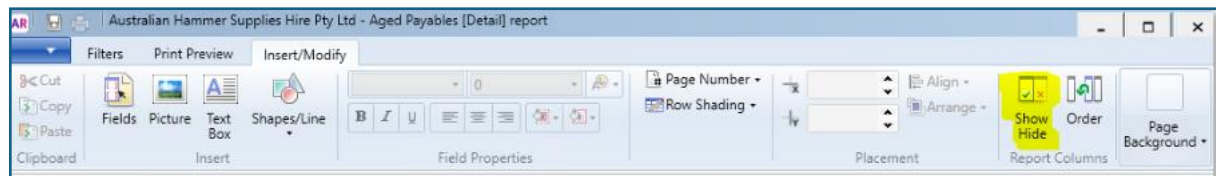

The following pop up will appear. Click on **Aged payables** detail then **Display report**

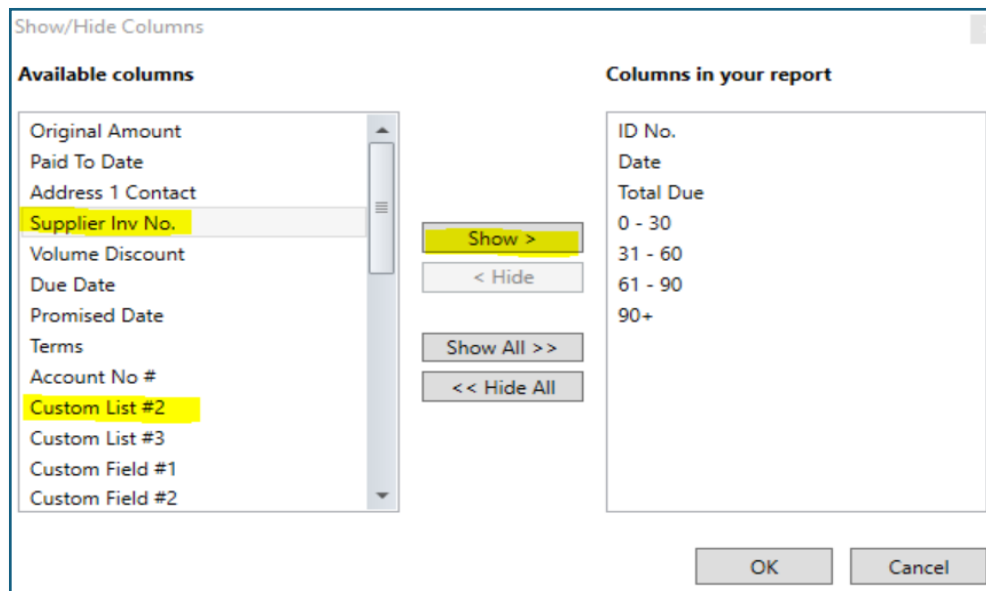

Once here change the Ageing method to “**Days overdue using Purchase Terms**” then hit **Insert/Modify**

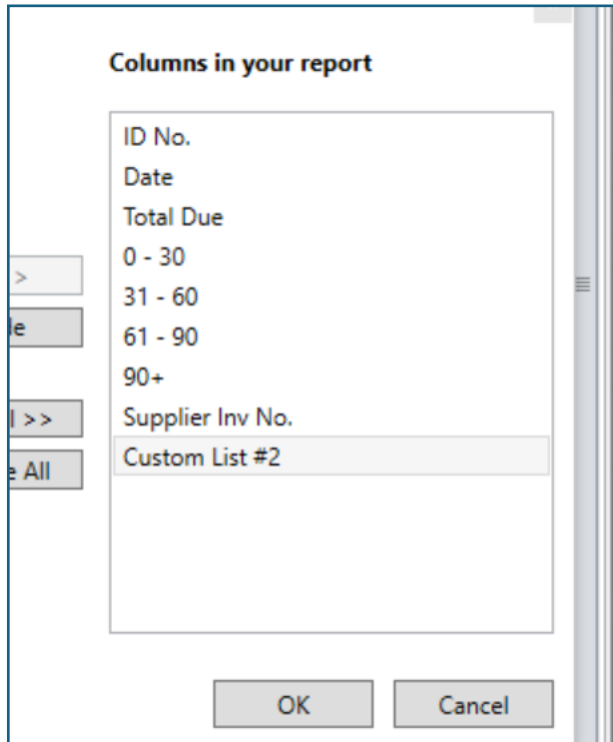

The below ribbon will appear then click **Show Hide**

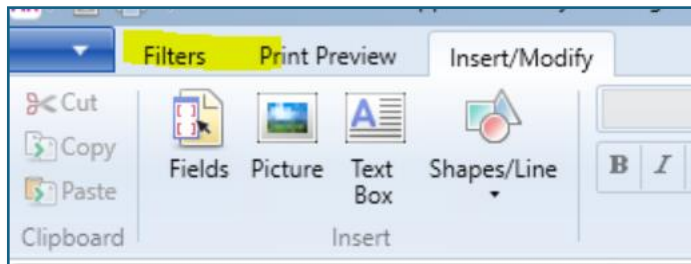

Highlight **Supplier Inv No** then click **Show**. Followed by highlighting **Custom List #2** then click **Show**

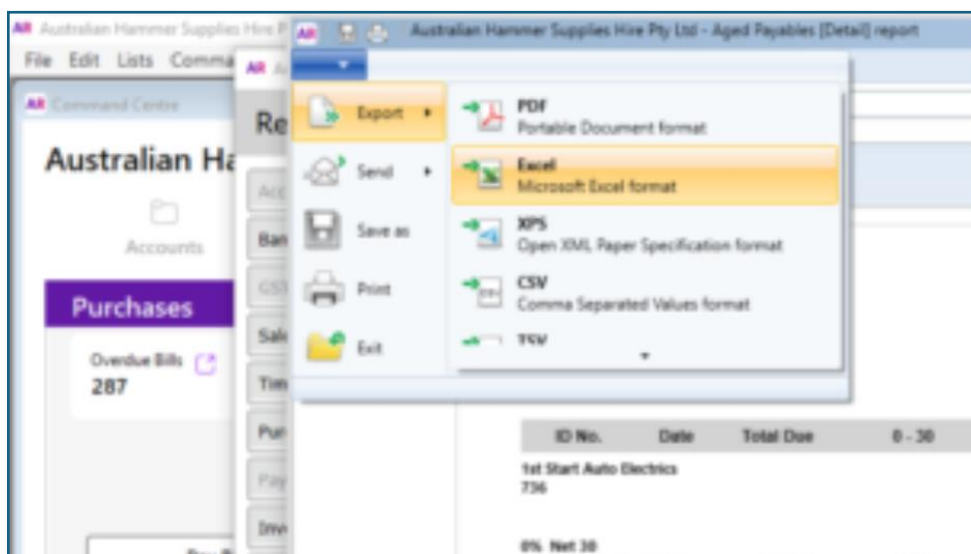

Once both appear in the list hit **OK**

Then go back to **Filters**

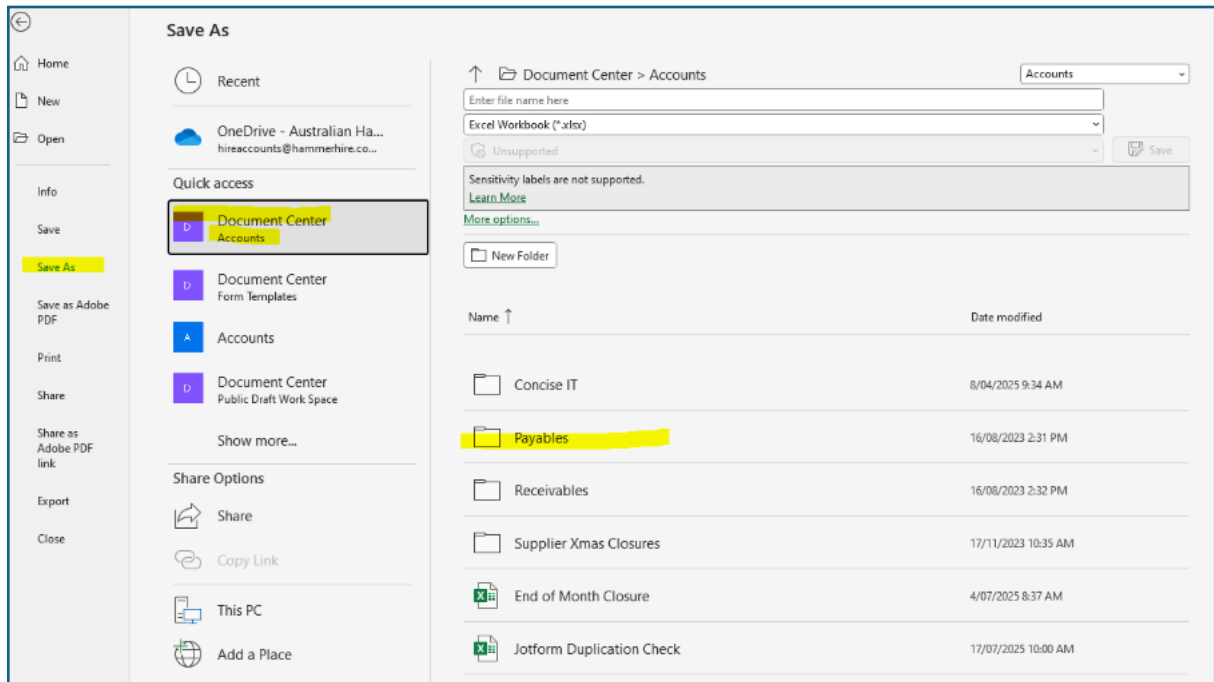

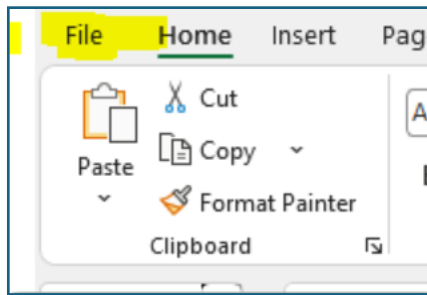

Once the set-up is done you need to click **the blue down arrow, export**, then **Excel**

[illegible]

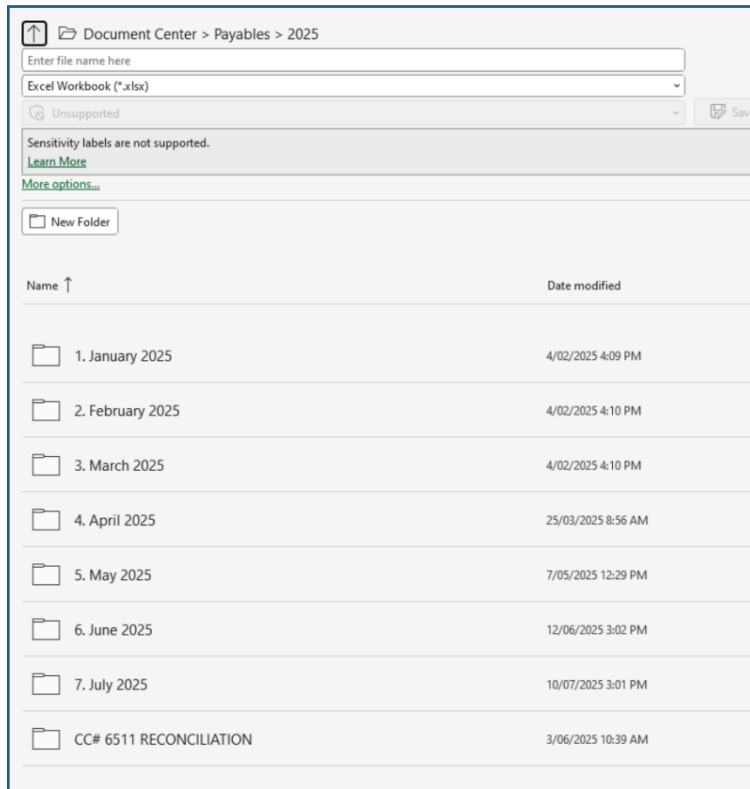

Before moving to the next step make sure the spreadsheet is saved. Click file > Save As > Document Center (Accounts) > Payables

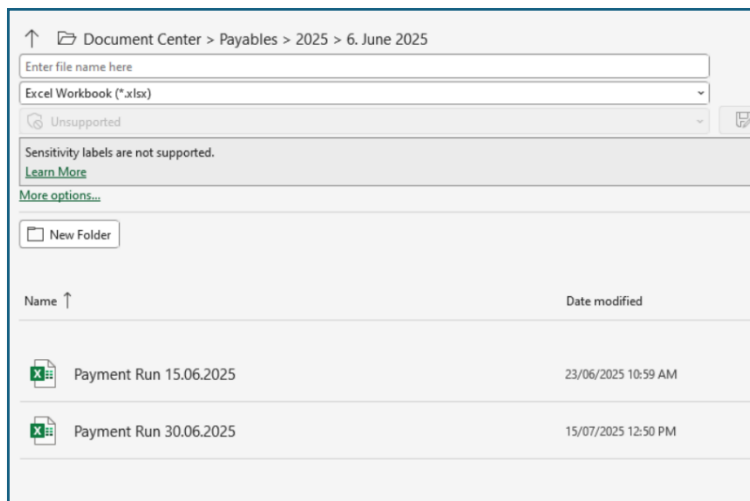

Then click **2025** (or the year we are currently in)

Then click the current month we are in

Then save it using a file name in the same format as below e.g. **Payment Run15.06.2025**

Please see attached a copy of the latest pay run completed and the formatting used

You will notice that some lines are highlighted in Green. These are items that have been reconciled to the customer statement. I have attached an example statement for you

If there are invoices that are missing, and we do not have a copy then send an email to the supplier asking for a copy. If the Purchase order matches and is received, then process the invoice. If the PO is not received or doesn't match, then send to the correct contact to process. E.g James in parts.

A few examples of issues that may arise are as follows

Missing invoices that are not on the statement (see above)

Invoices that appear on the spreadsheet but not on statements. This could be a result of a few things. Eg Invoice was paid upfront but a payment not yet allocated or processed to the wrong supplier.

If processing to the wrong supplier occurs you will need to fix this in MYOB. To do this follow the below steps

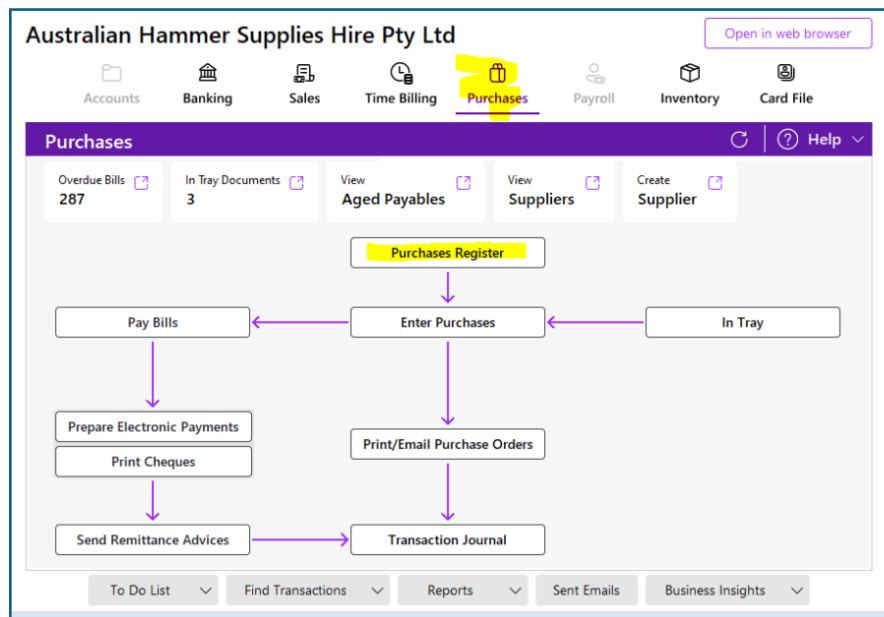

Fixing supplier issues in MYOB

If an invoice is processed to the incorrect supplier and is not picked up until after its been sent from MCS to MYOB the following steps need to be followed

The below highlighted invoice was processed to CT Hydraulics and not Pirtek Botany

As you can see the difference is I have put an A after the invoice number and put the line in as a negative. I have put in the description this is a correction and the reason for this correction.

Once done hit **OK**. You will then need to apply the credit to this invoice to close this off.

This is done by going into the returns and debits tab on the purchase register screen. Highlighting the credit you just raised and hit apply to purchase

4. PROCESS FOR MID/EOM PAYMENTS AND EFT PAYMENT REQUESTS:

Ensure all payment invoice requested are upload in MYOB before send request for payment.

- Payment Request Cutoff:**
 The cutoff time for payment requests is 2:00 PM. Ensure that the amounts requested for credit card or direct deposit payments match those listed in the approved pay run spreadsheet
- EFT Payment Verification:**
 For EFT payments, verify that all bank details are correct, match the supplier's records, and are properly set up in MYOB.
- Supplier EFT Payments in MYOB:**
 Process each supplier payment individually in MYOB and mark them as "Done" in the spreadsheet. Ensure the EFT payment amount in MYOB matches the amount shown in the spreadsheet.(see screenshot below)
- Supplier Payment via Credit Card (Ending #6511):**
 Upon receiving my confirmation payment email, contact the supplier and process the payment over the phone. Once the payment is made, mark the invoice as "Paid" both in MYOB and in the spreadsheet.
- Email Remittance:**
 After completing all payments, ensure you send the email remittance to the supplier.

Additional Requirements:

When emailing the requested supplier payment details, please include the following:

- The total supplier payment amounts for both credit card and direct deposit.
- The MYOB electronic payment details, as shown in the screenshot, should also be included as shown on below screenshot
